Dear Attorney Hesse,

I am a small businessman who would like to express my support for the proposal to end the case against Microsoft by settlement.

For three years the government has wasted millions of tax dollars trying to chase Microsoft, mostly because other companies have tried to get the government to do what they can't: beat them. This case has not served America well and may have given foreign companies a chance to get into American information industries. We need to show more unity in this country in a lot of ways, and ending this case would be a great symbol.

I appreciate the chance to speak out, and I understand the volume of mail you must have to go through. I hope my concerns, and those of others are brought before the Judge. It's time to end the case against Microsoft.

Sincerely,

William J. Civalucci
